Original Sheet No. 8

The following surcharge credits are applicable to all metered customers located in the following towns on the mains of the Company within the Company's franchise area: Cohasset, (North Cohasset), Hingham, Hull and Norwell.

The surcharge credits reflected below are being made by Massachusetts-American Water Company through payments made to the Company by the Massachusetts Water Pollution Abatement Trust (the "Trust") pursuant to Section 22 of Chapter 78 of the Acts (the "Act") of 1998. The "Act" authorizes the "Trust" to provide financial assistance to eligible entities to meet debt service obligations on bonds incurred by such entities after January 1, 1992 to finance costs of water treatment projects which have been approved by the Department of Environmental Protection and completed on or prior to July 10, 1998.

Untitled

The surcharge credit is a result of the Company's investment in the water treatment facility in Hingham, Massachusetts.

The first two annual payments from the Trust to the Company will be made prior to the start of the refund period. Therefore, the surcharge credit applied to customer bills during the first year of the program will be approximately two (2) times the surcharge credit amount refunded during years two (2) through nine (9).
